EDUCATION

PCCOE, Pimpri Hcinchwad College Of Engineering   **2023 - 2027**
B.Tech - Computer Engineering

COURSEWORK

- DSA
- OOPS
- Basic Generative AI
- FInancial Modelling with AI
- Data Visualization
- DBMS

CERTIFICATIONS AND CODING PLATFORMS

- **C++ certification from udemy**
- **R programming Certiification from CS-50**
- **DSA Certification from Udemy**
- **5 Stars in c++ and Problem Solving on Hackerank**
- **4 Stars in c and python**

PROJECTS

Donation Application - Hopebridge
- Developed HopeBridge, a secure, transparent platform linking donors and orphanages.
- Crafted an intuitive UI with personalized recommendations and flexible giving options.
- Leveraged scalable modern tech and efficient logistics to drive community impact.

Library Management System
- Built a basic website for library management using queue for book issue and stack for return history.
- Enabled efficient tracking of book lending and returns through structured data handling.
- Designed a simple, user-friendly interface to streamline library operations.

Soil Type Detection
- Built a website to display soil types and their uses.
- Provided region-wise and crop-based soil info.
- Aimed to help farmers and learners with easy access to data.

SKILLS AND ACHIEVEMENTS

- **Programming languages : C, c++, python , HTML , CSS, Javascript, kotlin**
- **Databases : SQL and NOSQL**
- **Tools & Platforms : GitHub, VS Code, Linux**
- **Issued Copyright for donation app**
- **Flexibleto adapt to new situations or challenges.**

GENERATIVE AI AND DATA SCIENCE

- **OpenAI API, LLMs, prompt engineering**
- **Proficient in Python and libraries like Pandas, NumPy**
- **Strong understanding of machine learning concepts and algorithms**
- **Good communication skills and a collaborative mindset**
